Project Overview:
Find the Preposition is a simple game designed for kids under age 15. Playing this game will have both fun and learning at the same time. Prepositions are tough ones to remember for many of us. So this game will help them to practice prepositions.

Platform :
PHP, Java script, HTML, CSS, Bootstrap

Project Objectives:
> **Find the Preposition** will make learning preposition simple for kids
> **Find the Preposition** is a self learning tool
> Digital Learning material designed for simple learning
